TITLE:
Recommendation from Board of Supervisors of Elections of the Number and Location of Polling Places

SUPPORTING BACKGROUND:																					
Section 6C-3.1(3) of the City Code provides that the Board of Supervisors of Elections (BOSE) shall make recommendations to the Mayor and City Council concerning the number and location of election polling places. The BOSE is scheduled to meet on April 23, 2009 and will forward its recommendation to the Mayor and Council.																					
Staff is proposing that the number and location of election polling places and the boundaries of each voting area remain unchanged from those used during the 2007 City election as there have not been significant shifts of registered voters among the voting areas. Attached is a map of the proposed voting areas and polling places. Also included is the number of registered voters in each voting area based on data received from Montgomery County in March of 2009.																					
Below is a summary of the change in the number of registered voters from the 2007 City election:
