*Join us for a unique interactive experience in play spaces that have been inspired by the cultural, economic and natural history of Gaithersburg.*

### **Entrance**

Relax on a swinging bench next to the fountain and gazebo and be mesmerized by the herb spiral.

### **Bird's Nest**

Climb around on a jumble of log posts and check out who's checked into the insect hotel.

### **The Lost Library**

Form a story circle, read a book in the over-sized storyteller chair, and take a book (or leave one) in the lending library box.

### **Log Town**

Say "hello" to our wooden farm animals, build a sand castle, release water over log flumes and explore the playhouses and play tables in a large sand box.

### **Sliding Hill**

Scramble around on the stumps and stepping stones, then head down the hill on a slide.

### **Great Seneca Creek**

Spread your lunch on a picnic table, climb a fallen tree, or use the hand pump to fill up the dry creek bed – then watch where the water goes.
