Hello,

I am a resident in Gaithersburg city and would like to have some comments about the new buildings redevelopment plan of Gateway Lakeforest.

Have you ever thought of expanding the roads surrounding the area before considering building 410 resident units? This area is already too crowded, especially the Goshen/Summit/Old town Gaithersburg/Mongtomery Village area, we don't want more cars on the road. If you want to build more houses, please consider expanding and building more roads.

With Lakeforest Mall going to be another giant development area, where will all the cars fit on the road? This city and county wants more property taxes and keeps allowing more buildings for residents in the area, but never considers roads or school buildings/upgrades. The Gaithersburg Middle School is super old and I haven't heard any plans to rebuild, Goshen road all the way to Summit is always packed up, it's very stressful when we have to drive there everyday.

Thanks,  
Van.
