I just read of someone objecting to their expansion.

I personal have used them in the past.

They are great people. Very friendly, and great service and affordable.
They have been in Existence since 1988. Matter fact it's nice to have them close to home no need to go far.

I live on 644 Lakeworth drive Gaithersburg MD Thank you

Good morning City Planning Officials,

I live on Fairbanks Dr near Deer Park Drive where you want to build a crematorium. Simple google search has shown the damages it can cause to our living environment. This is an established residential area. If you put yourself in our shoes, would you want to breath in the air full of toxins and would you like your kids and grandkids exposed to that? There are other ways to generate city taxes but not over people's health. You are elected to protect public interest and health, so here on behalf of my neighbors who live on 123, 119, 151 and 115 Fairbanks Dr., I'm pleading you to do the right thing. Please hear us loud and clear - We SAY NO TO BUILD CREMATORIUM near Deer Park Dr.

I can be reached at [REDACTED] if you have questions. Thanks.

Regards,

Jin Liu

does cremation create polluti.

[All](#)[Images](#)[Maps](#)[News](#)[Videos](#)[S](#)

The process of corpse **cremation** generates numerous harmful air **pollutants**, including particulate matter (PM), sulfur dioxide (SO₂), nitrogen oxides (NO_x), volatile organic compounds (VOCs), and heavy metals. These **pollutants** could have severe effects on the surrounding environment and human health. May 2, 2018

Dear
I'm the owner at [19 Fairbanks Dr](#) Gaithersburg. I don't think that is right way to build a crematorium close to 355 main road and close to Gaithersburg high school. That will make more air pollution and dangerous for children. I don't agree to build it as a citizen in Gaithersburg.
Thank you
Amber

Good Morning Jasmine,

I am not to familiar on how cremation is to be done. But from what I am reading mercury is part of the process?

And if i will affect our environment. The cremation portion I would oppose to that.

Pls add that into my correspondence.

thank you very much
Elizabeth Jaramillo

Subject: NO-Proposal to install a crematorium at 14 Deer Park Rd.

This email is from an EXTERNAL source. Please use caution when opening attachments, clicking links, or responding.

I am writing to express my dismay regarding the Devol request to expand their viewing space and install a crematorium.

While Devol provides a unique service to the Gaithersburg area, I am opposed to the zoning variance that they are requesting. There are a number of environmental pollutions issues, such as mercury pollution to which young children and unborn babies are most vulnerable. In addition, they want to increase their impermeable payment, further impacting storm water management.

East Side neighborhoods are being encroached upon, reducing their quality of life. The adjacent Deer Park neighborhood is well established. Homeowners purchased their homes long before the 355 “strip” developed and expected that their home values would grow. Instead, their home values will be greatly impacted by the smoke and odors associated with a crematorium, as well as the increased traffic associated with these additional services.

I ask the City Council to hold the line and disapprove this request and instead ask Devol to place their crematorium in an area already zoned as industrial, perhaps in Airpark—they don’t have to have crematorium services on site for most customers, and for those who religious practices require witness, they can install a small viewing area within the industrial area.

Thank you for your consideration
